THE WEEKLY TRIBUNE is now in its XXth Volume.

During the past year, THE TRIBUNE has been obliged to devote quite a large proportion of its space to Politics, but we shall beneaforth be able to limit our space devoted to Political discuseion, and devote most of our columns to subjects of less intense, but more abiding, interest. Among these, we mean to pay es

The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year 1981, and we hope to enlist in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at some our hope and our resolve that the cause of Education shall reocive an impetus from the exertions of THE TRIBUNE in its IL-AGRICULTURE

We have been compolled to restrict our elucidations of this grest interest throughout 1960, and shall endeavor to atone there-for in 1961. We half every invention or enterprise whereby American Capital and Labor are stiracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real contribution to the Public Wesl, insuring ampler, steadier, more convenient, more remunerating markets to the Farmer, with foller employment and better wages to the Laborer. The Progress of Mixing. From making, Steel-making, Cloth-wearing, &c., &c., in our country, and the world, shall be watched and reported by as with an earnest and active sympathy.

IV — FOREIGN AFFAIRS.

We employ the best correspondents in London, Paris, Turin, Berlin, and other European capitals, to transmit us early and as-

In spite of the pressure of Domestic Politics, our news from the Old World is now varied and ample; but we shall have tron the Old World is now warred and analyse; on we shad nave to render it more perfect during the eventful year just before us. V.—HOME NEWS.

We employ resular paid correspondents in California, at the Inchmos of Darien, in the Rocky Mountain Gold Region, and

wherever else they seem requisite. From the more accessible portions of our own country, we derive our information mainly from the multifactions correspondents of the Associated Frees, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspaper, with frieude. We aim to print the cheapest general newspaper, with the fallest and most authentic summary of useful intelligence, that is anywhere afforded. Hoping to "make each day a critic on the last," and print a better and better paper from year to year, as our means are steadily enlarged through the generous cooperation of our many well-wishers, we solicit and shall labor to deserve a continuance of public favor.
